## Safety of machinery - Safety-related parts of control systems - Part 3: Markov model-based PFH calculation

---

### Contents

Page

Foreword.....	iv
Introduction.....	v
<b>1 Scope.....</b>	<b>1</b>
<b>2 Normative references.....</b>	<b>1</b>
<b>3 Terms, definitions, symbols and abbreviated terms.....</b>	<b>1</b>
3.1 Terms and definitions.....	1
3.2 Symbols and abbreviated terms.....	1
<b>4 Basic assumptions.....</b>	<b>7</b>
<b>5 Channels.....</b>	<b>8</b>
5.1 General.....	8
5.2 Functional channel.....	8
5.3 Test channel.....	9
5.4 Channel comprising elements connected logically in series.....	9
5.5 Limitation of $\lambda_{\text{CHD}}$ (Capping).....	10
<b>6 Wearing parts.....</b>	<b>10</b>
<b>7 Common cause failures.....</b>	<b>11</b>
<b>8 Series arrangement of subsystems.....</b>	<b>12</b>
<b>9 Single-channel architecture with and without test channel.....</b>	<b>13</b>
9.1 General.....	13
9.2 General solution for the single-channel architecture.....	13
9.3 Single-channel architecture with time-optimal testing.....	14
9.4 Single-channel architecture with external diagnostics.....	15
9.5 Single-channel architecture with external diagnostics and time-optimal testing.....	15
9.6 Single-channel architecture without diagnostics.....	15
9.7 Simplified general solution for the single-channel architecture.....	16
9.8 Simplified solution for the single-channel architecture with time-optimal testing.....	16
<b>10 Two-channel architectures.....</b>	<b>16</b>
10.1 General.....	16
10.2 General solution for the two-channel architecture.....	17
10.3 Two-channel architecture with continuous testing.....	19
10.4 Two-channel architecture without testing.....	19
10.5 Simplified general solution for the two-channel architecture.....	20
10.6 Simplified solution for the symmetrical two-channel architecture.....	20
10.7 Simplified solution for the two-channel architecture with continuous testing.....	21
10.8 Simplified solution for the two-channel architecture without testing.....	21
<b>Annex A (informative) Examples of the application of this formula-based approach.....</b>	<b>22</b>
<b>Annex B (informative) Derivation of the PFH formulas presented in the main part.....</b>	<b>34</b>
<b>Bibliography.....</b>	<b>74</b>
