

# DIN EN 71-10:2006-03 (E)

## Safety of toys - Part 10: Organic chemical compounds - Sample preparation and extraction

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
Introduction .....		4
1	Scope .....	5
2	Normative references .....	5
3	Terms and definitions .....	5
4	Requirements (see B.6) .....	6
5	Sample preparation .....	9
6	Migration - Sampling and extraction .....	9
6.1	Simulant (see B.7) .....	9
6.2	Apparatus .....	9
6.3	Sampling .....	9
6.4	Extraction (see B.8) .....	10
7	Inhalation - Sampling, extraction and analysis .....	10
7.1	First-action method for solvents .....	10
7.2	Final-action method for solvents .....	10
8	Specific sampling and extraction procedures .....	10
8.1	Textiles - Flame retardants, colourants and primary aromatic amines .....	10
8.2	Leather - Colourants, primary aromatic amines and preservatives .....	11
8.3	Wood - Colourants, primary aromatic amines and wood preservatives .....	13
8.4	Paper - Colourants and primary aromatic amines .....	14
8.5	Aqueous liquids - Colourants, primary aromatic amines and preservatives .....	14
8.6	Solid toy materials intended to leave a trace - Colourants and primary aromatic amines ..	16
8.7	Modelling clay, play clay and similar - Colourants, primary aromatic amines and preservatives .....	16
8.8	Balloon-making compounds - Colourants and primary aromatic amines .....	17
8.9	Imitation tattoos with adhesive - Colourants, primary aromatic amines and preservatives	18
Annex A (normative) First-action method for colourants and primary aromatic amines .....		20
Annex B (informative) Rationale .....		22
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 88/378/EEC .....		24
Bibliography .....		25
