DIN EN 14797:2007-03 (E)

Explosion venting devices

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 Design requirements 8
4.1 General 8
4.2 Potential sources of ignition 9

5 Types of explosion venting devices 9
5.1 Explosion venting devices with reusable elements 9
5.2 Explosion venting devices with non reusable elements 9

6 Back pressure supports 9
6.1 General 9
6.2 Opening back pressure supports 10
6.3 Non-opening back pressure supports 10

7 Testing of explosion venting devices 10
7.1 General 10
7.2 Static activation pressure 10
7.3 Explosion testing 12

8 Information for use 16

9 Assembly, replacements or reusability 17

10 Marking 17
10.1 General 17
10.2 Explosion venting devices with reusable retaining elements 17
10.3 Explosion venting devices with non-reusable retaining elements 18
10.4 Omission of markings 18

11 Packaging 19
11.1 General 19
11.2 Marking 19

Annex A (informative) Examples for explosion venting devices 20

A.1 Re-closing explosion venting devices 20
A.2 Devices which require manual repositioning or replacement of the retaining element 21
A.3 Devices with non reusable elements 23

Annex B (informative) Service and maintenance 26

B.1 General 26
B.2 Servicing 26

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 94/9/EC 27

Bibliography 29
