

# DIN EN 14797:2007-03 (E)

## Explosion venting devices

---

| <b>Contents</b>       |  | <b>Page</b> |
|-----------------------|--|-------------|
| Foreword .....        |  | 4           |
| 1                     | Scope .....  | 5           |
| 2                     | Normative references .....   | 5           |
| 3                     | Terms and definitions .....  | 6           |
| 4                     | Design requirements .....  | 8           |
| 4.1                   | General .....  | 8           |
| 4.2                   | Potential sources of ignition .....  | 9           |
| 5                     | Types of explosion venting devices .....   | 9           |
| 5.1                   | Explosion venting devices with reusable elements .....                                   | 9           |
| 5.2                   | Explosion venting devices with non reusable elements .....                               | 9           |
| 6                     | Back pressure supports .....   | 9           |
| 6.1                   | General .....  | 9           |
| 6.2                   | Opening back pressure supports .....   | 10          |
| 6.3                   | Non-opening back pressure supports .....   | 10          |
| 7                     | Testing of explosion venting devices .....   | 10          |
| 7.1                   | General .....  | 10          |
| 7.2                   | Static activation pressure .....   | 10          |
| 7.3                   | Explosion testing .....  | 12          |
| 8                     | Information for use .....  | 16          |
| 9                     | Assembly, replacements or reusability .....  | 17          |
| 10                    | Marking .....  | 17          |
| 10.1                  | General .....  | 17          |
| 10.2                  | Explosion venting devices with reusable retaining elements .....                         | 17          |
| 10.3                  | Explosion venting devices with non-reusable retaining elements .....                     | 18          |
| 10.4                  | Omission of markings .....   | 18          |
| 11                    | Packaging .....  | 19          |
| 11.1                  | General .....  | 19          |
| 11.2                  | Marking .....  | 19          |
| Annex A (informative) | Examples for explosion venting devices .....   | 20          |
| A.1                   | Re-closing explosion venting devices .....   | 20          |
| A.2                   | Devices which require manual repositioning or replacement of the retaining element ..... | 21          |
| A.3                   | Devices with non reusable elements .....   | 23          |
| Annex B (informative) | Service and maintenance .....  | 26          |
| B.1                   | General .....  | 26          |
| B.2                   | Servicing .....  | 26          |
