DIN EN 14994:2007-05 (E)

Gas explosion venting protective systems

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 Venting of enclosures 7

5 Venting of isolated compact enclosures 8
5.1 General 8
5.2 Venting of isolated compact enclosures 8
5.3 Situations outside the constraints of the basic method (turbulence inducing elements, partially filled enclosures) 9
5.3.1 General 9
5.3.2 Elevated initial pressure 9
5.3.3 Effect of initial turbulence 10
5.3.4 Effect of partial filling 11
5.3.5 Venting of enclosures containing turbulence inducing elements 11
5.4 Elongated enclosures 11
5.4.1 General 11
5.4.2 Venting of elongated enclosures vented at each end 12
5.4.3 Venting of elongated enclosures vented along the enclosure 13
5.5 Pipes 14
5.6 Interconnected enclosures 16
5.7 Vent ducts 16

6 Supplementary design aspects 17
6.1 General 17
6.2 Positioning and shape of explosion vents 17
6.3 Choice of venting device 17
6.4 External effects 18
6.4.1 General 18
6.4.2 Flame effects 18
6.4.3 Pressure effects 18
6.4.4 Deflectors 19
6.5 Recoil forces 20

7 Information for use 21
7.1 Marking 21
7.2 Accompanying documents 22

Annex A (informative) Assessment of the level of congestion in rooms containing turbulence including elements 23

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 94/9/EC 26

Bibliography 27

Figures Figure 1 -- Value of exponent as a function of AV/V 2/3 10

Figure 2 -- Pressure reduction of partially filled enclosures as a function of filling ratio 11

Figure 3 -- Maximum pressure developed during deflagration of propane-air mixtures flowing at 2 m/s or less in a smooth, straight pipe closed at one end 14

Figure 4 -- Vent spacing needed to keep pred from exceeding 0,2 bar for propane in pipes flowing at an initial velocity of between 2 m/s and 20 m/s 15

Figure 5 -- Design of a flame deflector plate (basic principles) 20

Tables Table A.1 -- Values for the complexity factor c 24

Table ZA.1 -- Correspondence between this European Standard and Directive 94/9/EC 26
