

DIN EN 14591-2:2007-07 (E)

Explosion prevention and protection in underground mines - Protective systems - Part 2: Passive water trough barriers

Contents		Page
Foreword		5
Introduction		6
1	Scope	7
2	Normative references	7
3	Terms and definitions	7
4	Construction requirements of water troughs	10
4.1	General	10
4.2	Dimensions, specifications	10
5	Testing of water troughs	11
5.1	General	11
5.2	Construction tests	11
5.2.1	Shape, capacity, dimensions	11
5.2.2	Strength, shape retention	11
5.2.3	Water level indicator	11
5.3	Testing of electrostatic properties	12
5.3.1	Test method	12
5.3.2	Assessment	12
6	Additional fittings for water troughs	12
7	Marking of water troughs	12
8	Construction of concentrated and distributed water trough barriers	12
8.1	General	12
8.2	Framework structures	12
8.3	Arrangement of troughs in the roadway cross-section	13
8.4	Configuration of water trough barriers in mine workings	13
9	Marking of water trough barriers	15
10	Information for use	16
Annex A (normative) Construction of quick-deploy passive water trough barriers		17
A.1	General	17
A.2	Trough frames	17
A.3	Ropes and chains	17
A.4	Attachment supports	17
A.5	Arrangement of the quick-deploy water trough barriers in the roadway	17
A.6	Volume of water to be contained by quick-deploy water trough barriers	18
Annex B (normative) Example of acceptable test procedure for water troughs		19
B.1	Testing of heat reaction properties	19
B.1.1	Test procedure	19

B.1.2	Test arrangement	19
B.1.3	Procedure	20
B.1.4	Assessment	20
B.2	Testing of explosion properties	20
B.2.1	Testing of water dispersion	20
B.2.2	Testing the extinguishing efficiency in full-scale tests	22
B.3	Testing of fire-resistance properties	22
Annex C (informative) Example of marking of water troughs		23
Annex D (informative) Examples for configuration of water troughs		24
Annex E (informative) Example for marking of water trough barriers		44
Annex F (normative) Instructions for water trough barriers		45
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 94/9/EC		46
