

DIN EN 15188:2007-11 (E)

Determination of the spontaneous ignition behaviour of dust accumulations

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Terms and definitions	5
3	Test apparatus	6
3.1	Sample baskets	6
3.2	Oven	6
3.3	Thermocouples	6
3.4	Temperature recording equipment	6
4	Preparation of dust samples	6
5	Procedure	8
5.1	Experimental Procedure	8
5.2	Evaluation of tests	9
5.3	Calibration of thermocouples	10
6	Test report	11
Annex A (informative) Evaluation of experimental results for self-ignition temperatures		13
A.1	Introduction	13
A.2	Methods based on the thermal explosion theory	13
A.3	Numerical solution of Fourier's equation	16
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 94/9/EC		20
Bibliography		21
