# ISO/TR 17737:2007-04 (E)

## Workplace air - Guidelines for selecting analytical methods for sampling and analysing isocyanates in air

## Contents

Page

Foreword ..... iv

1 Scope ..... 1

2 Isocyanates ..... 1

3 Where are isocyanates found in industry? ..... 2

4 Airborne isocyanates ..... 3

5 Alternatives for sampling ..... 4
5.1 General ..... 4
5.2 Impregnated filters ..... 4
5.3 Impinger (and filter) ..... 4
5.4 Sorbent tubes ..... 4
5.5 Denuder filter ..... 4
5.6 Diffusive sampling ..... 5

6 Direct reading instruments ..... 5

7 Short description of four proposed and/or adopted methods for airborne isocyanates ..... 5
7.1 DBA method ..... 5
7.2 Double-filter method ..... 6
7.3 MAP method ..... 6
7.4 MP method ..... 6

8 Analysis ..... 8

9 Interferences ..... 8

10 Other sampling and analytical considerations ..... 8

11 Other considerations ..... 8
