DIN EN 926-1:2016-02 (E)

Paragliding equipment - Paragliders - Part 1: Requirements and test methods for structural strength

Contents

Page

European foreword 3

Introduction 4

1 Scope 5

2 Terms and definitions 5

3 Requirements 5
3.1 Shock loading 5
3.2 Sustained loading 5
3.3 Breaking strength of the suspension lines 5
3.4 Breaking strength of the main control lines 6

4 Test methods 7
4.1 Apparatus 7
4.2 Test specimen 8
4.3 Test conditions 8
4.4 Shock loading test 8
4.5 Sustained loading test 9
4.6 Line bending test 9

5 Test files 10
5.1 Test file information 10
5.2 Items accompanying the test files 11

6 Manufacturing record 11

7 Marking 12

Annex A (informative) Suspension lines 13
