

DIN EN 926-1:2016-02 (E)

Paragliding equipment - Paragliders - Part 1: Requirements and test methods for structural strength

Contents		Page
European foreword		3
Introduction		4
1	Scope	5
2	Terms and definitions	5
3	Requirements	5
3.1	Shock loading	5
3.2	Sustained loading	5
3.3	Breaking strength of the suspension lines	5
3.4	Breaking strength of the main control lines	6
4	Test methods	7
4.1	Apparatus	7
4.2	Test specimen	8
4.3	Test conditions	8
4.4	Shock loading test	8
4.5	Sustained loading test	9
4.6	Line bending test	9
5	Test files	10
5.1	Test file information	10
5.2	Items accompanying the test files	11
6	Manufacturing record	11
7	Marking	12
Annex A (informative) Suspension lines		13
