| 4.4.1                           | Surface finishing .....                        | 13          |
| 4.4.2                           | Surface materials .....                        | 13          |
| 4.5                             | Protrusions .....                              | 13          |
| 4.6                             | Edges and corners .....                        | 14          |
| 4.7                             | Entrapment, crushing and shearing points ..... | 15          |
| 4.7.1                           | General .....                                  | 15          |
| 4.7.2                           | Permissible openings .....                     | 15          |
| 4.7.3                           | Protections and grids .....                    | 15          |
| 4.7.4                           | Moving parts .....                             | 15          |
| 4.7.5                           | Slits .....                                    | 16          |
| 4.7.6                           | Entrapment of hair .....                       | 16          |
| 4.8                             | Slip resistance .....                          | 16          |
| 4.9                             | Fittings .....                                 | 16          |
| 4.10                            | Removable protection devices .....             | 17          |
| 4.11                            | Alteration of existing equipment .....         | 17          |
| 5                               | Test methods .....                             | 17          |
| 5.1                             | General .....                                  | 17          |
| 5.2                             | Test report .....                              | 17          |
| 6                               | Instruction and information .....              | 18          |
| 6.1                             | Installation .....                             | 18          |
| 6.2                             | Technical operation .....                      | 18          |
| 6.3                             | Inspection and maintenance .....               | 18          |
| 7                               | Marking .....                                  | 19          |
| Annex A (normative) Loads ..... |  | 20          |
| A.1                             | Permanent loads .....                          | 20          |

|   |  |    |
|---|--|----|
| A.1.1   | General .....                                    | 20 |
| A.1.2   | Self weight .....                                | 20 |
| A.1.3   | Prestressing loads .....                         | 20 |
| A.2   | Variable loads .....                             | 20 |
| A.2.1   | General .....                                    | 20 |
| A.2.2   | User loads .....                                 | 20 |
| A.2.3   | Snow loads .....                                 | 23 |
| A.2.4   | Wind loads .....                                 | 23 |
| A.2.5   | Temperature loads .....                          | 23 |
| A.2.6   | Specific loads .....                             | 23 |
| A.3   | Number of users on the equipment .....           | 23 |
| A.3.1   | General .....                                    | 23 |
| A.3.2   | Number of users on a point .....                 | 23 |
| A.3.3   | Number of users on line type elements .....      | 24 |
| A.3.4   | Number of users on an area .....                 | 24 |
| Annex B (normative) Method of calculation of structural integrity ..... |  | 25 |
| B.1   | General principles .....                         | 25 |
| B.1.1   | Limit state .....                                | 25 |
| B.1.2   | Ultimate limit state .....                       | 25 |
| B.1.3   | Serviceability limit state .....                 | 26 |
| B.2   | Load combinations for static analysis .....      | 26 |
| Annex C (normative) Physical testing of structural integrity .....      |  | 27 |
| C.1   | Pass/fail criteria .....                         | 27 |
| C.1.1   | Test method .....                                | 27 |
| C.1.2   | Compliance .....                                 | 27 |
| C.1.3   | Failure .....                                    | 27 |
| C.2   | Test load for equipment .....                    | 27 |
| C.2.1   | Load combinations for testing .....              | 27 |
| C.2.2   | Safety factor for test on identical series ..... | 27 |
| C.2.3   | Safety factor for test on a unique product ..... | 28 |
| C.3   | Load application .....                           | 28 |
| C.3.1   | General .....                                    | 28 |
| C.3.2   | Point loads .....                                | 28 |
| C.3.3   | Line loads .....                                 | 28 |
| C.3.4   | Area loads .....                                 | 28 |
| Annex D (normative) Methods of test for entrapment .....                |  | 29 |
| D.1   | Head and neck entrapment .....                   | 29 |
| D.1.1   | Apparatus .....                                  | 29 |
| D.1.2   | Test method .....                                | 30 |
| D.2   | Finger and toe entrapment .....                  | 30 |
| D.2.1   | Apparatus .....                                  | 30 |
| D.2.2   | Test method .....                                | 30 |
| D.3   | Foot and hand entrapment .....                   | 30 |
| D.3.1   | Apparatus .....                                  | 30 |
| D.3.2   | Test method .....                                | 31 |
| Annex E (normative) Testing of slip resistance .....                    |  | 32 |
| E.1   | Principle .....                                  | 32 |
| E.2   | Testing person .....                             | 32 |
| E.3   | Test rig .....                                   | 32 |
| E.4   | Test liquid .....                                | 32 |
| E.5   | Test specimen .....                              | 32 |
| E.6   | Test method .....                                | 33 |

|                            |   |           |
|----------------------------|---|-----------|
| <b>E.7</b>                 | <b>Evaluation .....</b>   | <b>33</b> |
