|--------------------|---|-------------|
| Foreword .....     |   | v           |
| Introduction ..... |   | vi          |
| 1                  | Scope .....   | 1           |
| 2                  | Normative references .....  | 1           |
| 3                  | Terms and definitions .....   | 1           |
| 4                  | Classification .....  | 3           |
| 5                  | Safety requirements .....   | 6           |
| 5.1                | General .....   | 6           |
| 5.2                | External construction .....   | 6           |
| 5.2.1              | Transmission elements and rotating parts .....  | 6           |
| 5.2.2              | Temperature rise .....  | 7           |
| 5.3                | Intrinsic loading .....   | 7           |
| 5.3.1              | Seat pillar and frame .....   | 7           |
| 5.3.2              | Handlebar and frame .....   | 7           |
| 5.3.3              | Pedal and frame .....   | 7           |
| 5.4                | Seat pillar -- Seat .....   | 7           |
| 5.4.1              | Insertion depth .....   | 7           |
| 5.4.2              | Seat adjustment .....   | 8           |
| 5.4.3              | Seat tilting .....  | 8           |
| 5.5                | Handlebar stem .....  | 8           |
| 5.6                | Stability .....   | 8           |
| 5.7                | Additional requirements for recumbent stationary exercise bicycles, upper body crank training equipment and combined crank training equipment ..... | 8           |
| 5.7.1              | Combined crank training equipment .....   | 8           |
| 5.7.2              | Seat system .....   | 8           |
| 5.8                | Additional classified requirements .....  | 9           |
| 5.9                | Endurance .....   | 11          |
| 5.10               | Additional instructions for use .....   | 11          |
| 5.11               | Additional warnings .....   | 12          |
| 6                  | Test methods .....  | 12          |
| 6.1                | General .....   | 12          |
| 6.1.1              | Dimensional check .....   | 12          |
| 6.1.2              | Visual examination .....  | 12          |
| 6.1.3              | Tactile examination .....   | 12          |
| 6.1.4              | Performance test .....  | 12          |
| 6.2                | Testing of temperature rise .....   | 12          |
| 6.3                | Testing of transmission elements and rotating parts .....   | 13          |
| 6.3.1              | Crank and protective cover finger probe examination .....   | 13          |
| 6.3.2              | Other moving parts finger probe examination .....   | 13          |
| 6.4                | Testing of intrinsic loading .....  | 13          |
| 6.4.1              | Seat pillar and frame .....   | 13          |
| 6.4.2              | Handlebar and frame .....   | 13          |
| 6.4.3              | Pedal and frame .....   | 14          |
| 6.5                | Testing of seat tilting .....   | 14          |

|  |  |    |
|--|--|----|
| 6.6  | Testing of seat back rest .....                  | 14 |
| 6.7  | Testing of stability .....                       | 14 |
| 6.8  | Description of the test device .....             | 14 |
| 6.9  | Testing of constant power mode .....             | 15 |
| 6.10   | Testing of heart rate control mode .....         | 15 |
| 6.11   | Testing of power accuracy for class A .....      | 15 |
| 6.11.1   | General .....                                    | 15 |
| 6.11.2   | Speed dependent crank training equipment .....   | 15 |
| 6.11.3   | Speed independent crank training equipment ..... | 16 |
| 6.12   | Testing of power repeatability for class B ..... | 17 |
| 6.13   | Endurance test .....                             | 17 |
| 6.13.1   | Speed independent crank training equipment ..... | 17 |
| 6.13.2   | Speed dependent crank training equipment .....   | 17 |
| 7  | Test report .....                                | 18 |
| Annex A (informative) Example of determining the moment of inertia J (looking from the driving axis into a system) ..... |  | 19 |
| Bibliography .....   |  | 21 |
