|-------------------------|--|-------------|
| European foreword ..... |  | 4           |
| Introduction .....      |  | 6           |
| 1                       | Scope .....  | 7           |
| 2                       | Normative references .....                                       | 7           |
| 3                       | Terms and definitions .....                                      | 7           |
| 4                       | Testing .....  | 7           |
| 5                       | Design and construction .....                                    | 8           |
| 5.1                     | Occupancy .....  | 8           |
| 5.2                     | Entrance steps to living area .....                              | 8           |
| 5.2.1                   | Heights .....  | 8           |
| 5.2.2                   | Minimum tread dimensions .....                                   | 8           |
| 5.2.3                   | Mechanical strength .....  | 8           |
| 5.2.4                   | Slip resistance and stability test of entrance step .....        | 8           |
| 5.3                     | Doors .....  | 9           |
| 5.3.1                   | Dimensions .....   | 9           |
| 5.3.2                   | Securing doors .....   | 9           |
| 5.3.3                   | Childproof locking systems .....                                 | 9           |
| 5.3.4                   | Dead-locking systems .....                                       | 9           |
| 5.4                     | Awning rails .....   | 9           |
| 6                       | Internal equipment .....   | 9           |
| 6.1                     | Bunks .....  | 9           |
| 6.1.1                   | Mattress and/or upholstery .....                                 | 9           |
| 6.1.2                   | Clearance .....  | 9           |
| 6.1.3                   | Clearance of drop-down bunks .....                               | 10          |
| 6.1.4                   | Protection against falling out .....                             | 10          |
| 6.1.5                   | Mechanical strength .....  | 11          |
| 6.1.6                   | Security of bunks .....  | 11          |
| 6.1.7                   | Access to high level bunks .....                                 | 11          |
| 6.1.8                   | Protection against entrapment .....                              | 11          |
| 6.2                     | Cupboards .....  | 12          |
| 6.3                     | Cooking appliance .....  | 12          |
| 7                       | Drinking water supply, storage and disposal of waste water ..... | 12          |
| 7.1                     | Couplings for drinking water supply .....                        | 12          |
| 7.2                     | Drinking water .....   | 12          |
| 7.2.1                   | Tanks .....  | 12          |
| 7.2.2                   | Materials .....  | 12          |
| 7.2.3                   | Marking .....  | 12          |
| 7.3                     | Waste water disposal tank .....                                  | 12          |
| 7.4                     | Toilet waste disposal .....                                      | 12          |
| 7.4.1                   | Discharge systems .....  | 12          |
| 7.4.2                   | Outlets and couplings from toilet holding tanks .....            | 13          |
| 8                       | Appliances .....   | 13          |

|   |   |    |
|---|---|----|
| 8.1   | Installation of appliances .....                  | 13 |
| 8.2   | Restriction concerning supply of appliances ..... | 13 |
| 9   | Heating .....                                     | 13 |
| 10  | Installations .....                               | 14 |
| 10.1  | Electricity .....                                 | 14 |
| 10.1.1  | Low voltage .....                                 | 14 |
| 10.1.2  | Extra low voltage (DC) .....                      | 14 |
| 10.2  | Liquefied petroleum gas (LPG) .....               | 14 |
| 11  | Ventilation .....                                 | 14 |
| 11.1  | General .....                                     | 14 |
| 11.2  | Adjustment of ventilators .....                   | 14 |
| 11.3  | Location of ventilation openings .....            | 14 |
| 12  | Fire precautions .....                            | 14 |
| 12.1  | Means of escape .....                             | 14 |
| 12.1.1  | Emergency exits .....                             | 14 |
| 12.1.2  | Escape path .....                                 | 14 |
| 12.1.3  | Sanitation compartments .....                     | 15 |
| 12.1.4  | Emergency doors .....                             | 15 |
| 12.1.5  | Interior doors .....                              | 15 |
| 12.1.6  | Emergency windows and emergency panels .....      | 15 |
| 12.1.7  | Work surfaces .....                               | 17 |
| 12.1.8  | Heating and cooking equipment .....               | 18 |
| 12.2  | Protection of combustible elements .....          | 18 |
| 12.2.1  | Rigid or guided elements .....                    | 18 |
| 12.2.2  | Non-guided elements .....                         | 18 |
| 12.3  | Hotplates .....                                   | 19 |
| 13  | Warning notice .....                              | 19 |
| 13.1  | Provision of warning notice .....                 | 19 |
| 13.2  | Content of warning notice .....                   | 19 |
| 14  | User's handbook .....                             | 20 |
| Annex A (normative) Strength of steps (see 5.2.3) .....                                   |   | 22 |
| Annex B (normative) Slip resistance test (see 5.2.4) .....                                |   | 24 |
| Annex C (normative) Separate entrance step stability test (see 5.2.4.2) .....             |   | 26 |
| Annex D (normative) Clear height over bunks (see 6.1.2) .....                             |   | 28 |
| Annex E (normative) Strength of protection against falling out of bunks (see 6.1.3) ..... |   | 29 |
| Annex F (normative) Mechanical strength of bunks (see 6.1.5) .....                        |   | 30 |
| Annex G (normative) Security of folding bunks (see 6.1.6) .....                           |   | 31 |
| Annex H (normative) Safety of access to high level bunks (see 6.1.7) .....                |   | 32 |
| Annex I (normative) Measurement of gaps (see 6.1.7) .....                                 |   | 34 |
| Annex J (normative) Heating (see Clause 9) .....  |   | 36 |
| Annex K (normative) Test equipment .....  |   | 38 |
| Annex L (informative) Environmental aspects .....   |   | 41 |
| Bibliography .....  |   | 42 |
