Personal flotation devices - Part 9: Test methods

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Classification of personal flotation devices	4
5	Test methods	4
5.1	General	4
5.2	Sampling and conditioning	4
5.3	Criteria for passing and failure	4
5.4	Magnetic properties testing	5
5.5	Mechanical properties tests	5
5.6	Human subject performance tests	18
	Annex A (informative) Classification of personal flotation devices	32
	Annex B (normative) Adult reference vest for test-subject disqualification and test-subject group validation	34
	Annex C (normative) Child reference vest for test subject disqualification and test subject group validation	46
	Annex D (normative) Infant reference vest for test subject disqualification and test subject group validation	55
	Annex E (informative) Child manikins	63
	Bibliography	68
