ISO 12402-7:2006-11 (E)

Personal flotation devices - Part 7: Materials and components - Safety requirements and test methods

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 3

4 Materials and components 5
4.1 General 5
4.2 Sewing thread 7
4.3 Fabric 8
4.4 Structural webbing and tie tape 13
4.5 Structural lacing 15
4.6 Structural zippers 15
4.7 Hardware 18
4.8 Foam flotation material 24
4.9 Inflation chamber materials 32
4.10 Polymeric foam coatings 36
4.11 Inflation systems for hybrid and fully inflatable PFDs 41
4.12 Gas-filled cylinders 57

Annex A (informative) Mildew resistance of materials: Soil burial method 73

Annex B (informative) Abrasion resistance of cloth: Oscillatory method (Wyzenbeek method) 75

Annex C (informative) Example of a design drawing 78
