Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Graph structure and meta-model 2

5 Meta-model objects in XML serialization 3

6 Primary data and terminal representation 4
6.1 General 4
6.2 Sequential representation 4
6.3 Standoff representation 5
6.4 Typing of nodes and edges 6

7 Annotations 6
7.1 General 6
7.2 Domain declaration 7
7.3 Declaring annotations in an external file 7
7.4 Feature values 8
7.5 Data category references 8
7.6 Using the @type attribute 9

8 Corpus structure 10
