Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms, definitions and abbreviations 5
3.1 Terms and definitions 5
3.2 Abbreviations 6

4 Functions 6

5 Design characteristics 8
5.1 General 8
5.2 Temperature range 9
5.3 Materials of construction 9
5.4 PRD 9
5.5 PID 10
5.6 Contact and insulation resistances 12
5.7 System architecture of MultiPID 13
5.8 Electrical design characteristic of MultiPID 13

6 Protocol structure 17
6.1 Telegram transmission sequences 17
6.2 Bit coding 17
6.3 Byte frame 18
6.4 Byte sequence in multibyte variables 18
6.5 Telegram 18
6.6 Message format 19
6.7 Message specification 20
6.8 Message #5 to #10 25

7 Tests 30
7.1 Type test 30
7.2 Production test 35

8 Marking 36

9 Installation, operating and maintenance recommendations 36

Annex A (informative) Manufacturer ID 37

Annex B (informative) Patent for hose communication methods 38

Annex C (normative) Calculation algorithm for CRC 16 39

Annex D (informative) A-deviations 40
