DIN EN 12285-1:2018-12 (E)

Workshop fabricated steel tanks - Part 1: Horizontal cylindrical single skin and double skin tanks for the underground storage of flammable and nonflammable water polluting liquids other than for heating and cooling of buildings

European foreword 4

1 Scope 5

2 Normative references 6

3 Terms, definitions, symbols and abbreviations 6
3.1 Terms and definitions 6
3.2 Symbols and abbreviations 8

4 Product characteristics 9
4.1 General 9
4.2 Welding 9
4.2.1 Types of joints 9
4.2.2 Shell plate arrangement 12
4.2.3 Consumables 12
4.2.4 Interstitial space 12
4.3 Load bearing capacity 12
4.4 Additional requirements 12
4.4.1 Manways and inspection covers 12
4.4.2 Structural bolts 13
4.4.3 Tank fittings, pipes and nozzles 13
4.4.4 Lifting lugs 14
4.5 Mechanical resistance and stability 15
4.5.1 Materials for shell, dished ends and manways 15
4.5.2 Wall thickness 15
4.5.3 Stiffening resistance 17
4.5.4 Design of Stiffening Rings 18
4.6 Internal pressure 19
4.7 Tightness (gas and liquid) 19
4.8 Release of dangerous substances 19
4.9 Durability 19
4.10 Crushing resistance 20

5 Testing and sampling methods 20
5.1 Mechanical resistance and stability 20
5.1.1 Materials for shell, dished ends and manways 20
5.1.2 Wall thickness 20
5.1.3 Welding 20
5.1.4 Stiffening resistance 20
5.2 Load-bearing capacity 20
5.3 Tightness test (gas or liquid) 21
5.4 Crushing resistance 21
5.5 Testing of additional requirements 21
5.5.1 Manways and inspection covers 21
5.5.2 Structural bolts 21
5.5.3 Tank fittings, pipes and nozzles 21
5.5.4 Lifting lugs 21
5.6 Durability 22

6 Classification 22
6.1 Tank type 22
6.2 Tank classes 22
6.3 Designation and purchaser's specification 22

7 Marking and labelling 23
7.1 Marking of the tank 23
7.2 Documentation 23

8 Environmental aspects 23

Annex A (informative) Transport, storage and installation procedure 24

A.1 Transport 24
A.2 Storage 24
A.3 Installation procedure 24
A.3.1 Planning 24
A.3.2 Ground works 24
A.3.3 Backfill materials 25
A.3.4 Installing backfill 25
A.3.5 Access chamber 26

Annex B (informative) Evaluation of liquid-material-combinations for storage tanks according to this standard 27

B.1 General 27
B.2 Criteria for evaluation 27
B.2.1 Conditions for resistance 27
B.2.2 Criteria for the suitability evaluation of liquid-material-combinations 29
B.3 Evaluation of liquids not mentioned in the positive-liquid-list 29
B.4 Use of the positive-liquid-list 29
B.4.1 Classification of the tanks according to their working conditions 29
B.4.2 Conditions for the use of the liquids 30

Annex C (informative) Environmental aspects 114

Annex D (informative) A-deviations 117
