Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Methods of representation and dimensioning of holes 2
4.1 Complete representation and complete dimensioning of holes 2
4.2 Complete representation and simplified dimensioning of holes 2
4.3 Simplified representation and simplified dimensioning of holes 2
4.4 Representation of holes on the same drawing 2

5 Structure of dimensioning of holes 3
5.1 Structure and sequence of descriptive elements for simplified dimensioning of holes 3
5.2 Graphical symbols 4
5.3 Number of groups of holes and number of holes in a group 6
5.4 Indication of tolerances 7
5.5 Hole bottom 7
5.6 Countersinks and chamfers 7
5.7 Depth dimensions 8
5.8 Indication of surface texture 10
5.9 Indication of dimensions on geometrical tolerances 12

Annex A (informative) Examples for representation and dimensioning of holes, counterbores and internal threads 13
