ISO 14405-1:2010-12 (E)

Geometrical product specifications (GPS) - Dimensional tolerancing - Part 1: Linear sizes

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 2

3 Terms and definitions 3

4 Specification modifiers and symbols 14

5 Default specification operator for size 16
5.1 General 16
5.2 ISO default specification operator for size 17
5.3 Drawing-specific default specification operator for size 18

6 Drawing indication for special specification operators for size 18
6.1 General 18
6.2 Indication with one or more specification operators 20

7 Indication of the toleranced feature on which the size characteristic is defined 23
7.1 Complete toleranced feature of size 23
7.2 Specific fixed restricted portion of the feature of size 24
7.3 Any restricted portion of the feature of size of a specified length 25
7.4 Any cross section of a feature of size 26
7.5 Specific cross section of a feature of size 27
7.6 Requirement applied individually for more than one feature of size 28
7.7 Requirement applied simultaneously for more than one feature and considered as one feature of size 28
7.8 Flexible/non-rigid parts 29

Annex A (normative) Proportions and dimensions of graphical symbols 30

Annex B (informative) Overview diagram for size 31

Annex C (informative) Former practice and consequences 32

Annex D (informative) Relation to the GPS matrix model 33

Bibliography 35
