European foreword 4

Introduction 5

1 Scope 6

2 Normative references 7

3 Terms and definitions 7

4 Symbols 9

5 Concept of the iterative GUM method for estimation of uncertainty of measurement 10

6 Procedure for Uncertainty MAnagement -- PUMA 11
6.1 General 11
6.2 Uncertainty management for a given measurement process 11
6.3 Uncertainty management for design and development of a measurement process/procedure 12

7 Sources of errors and uncertainty of measurement 15
7.1 Types of errors 15
7.2 Environment for the measurement 17
7.3 Reference element of measurement equipment 17
7.4 Measurement equipment 17
7.5 Measurement set-up (excluding the placement and clamping of the workpiece) 18
7.6 Software and calculations 18
7.7 Metrologist 18
7.8 Measurement object, workpiece or measuring instrument characteristic 18
7.9 Definition of the GPS characteristic, workpiece or measuring instrument characteristic 19
7.10 Measuring procedure 19
7.11 Physical constants and conversion factors 19

8 Tools for the estimation of uncertainty components, standard uncertainty and expanded uncertainty 19
8.1 Estimation of uncertainty components 19
8.2 Type A evaluation for uncertainty components 20
8.3 Type B evaluation for uncertainty components 20
8.4 Common Type A and B evaluation examples 22
8.5 Black and transparent box model of uncertainty estimation 25
8.6 Black box method of uncertainty estimation -- Summing of uncertainty components into combined standard uncertainty, uc 26
8.7 Transparent box method of uncertainty estimation -- Summing of uncertainty components into combined standard uncertainty, uc 26
8.8 Evaluation of expanded uncertainty, U, from combined standard uncertainty, uc 27
8.9 Nature of the uncertainty of measurement parameters uc and U 27

9 Practical estimation of uncertainty -- Uncertainty budgeting with PUMA 28

9.1 General ... 28
9.2 Preconditions for an uncertainty budget ... 28
9.3 Standard procedure for uncertainty budgeting ... 29

10 Applications ... 31
10.1 General ... 31
10.2 Documentation and evaluation of the uncertainty value ... 32
10.3 Design and documentation of the measurement or calibration procedure ... 32
10.4 Design, optimization and documentation of the calibration hierarchy ... 33

DINENISO14253-2:2018-09 ENISO14253-2:2011(E) 10.5 Design and documentation of new measurement equipment ... 34
10.6 Requirements for and qualification of the environment ... 34
10.7 Requirements for and qualification of measurement personnel ... 34

Annex A (informative) Example of uncertainty budgets -- Calibration of a setting ring ... 36

Annex B (informative) Example of uncertainty budgets -- Design of a calibration hierarchy ... 43

Annex C (informative) Example of uncertainty budgets -- Measurement of roundness ... 69

Annex D (informative) Relation to the GPS matrix model ... 75

Bibliography ... 77
