ISO 6413:2018 (E)

Technical product documentation — Representation of splines and serrations

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Designation

4.1 Graphical symbols
4.2 Method for indication designation

5 Complete representation of spline joints

6 Simplified representation

6.1 General
6.2 Representation of details (shafts and hubs)
6.2.1 General
6.2.2 Contours and edges
6.2.3 Root surface
6.2.4 Pitch surface
6.2.5 Usable length
6.2.6 Tool run-out
6.2.7 Position of teeth
6.2.8 Detailed drawing of tooth profile
6.2.9 Flanks

7 Assembly drawings

Annex A (normative) Proportions and dimensions of graphical symbols

A.1 General requirements
A.2 Proportions
A.3 Dimensions
