# DIN EN ISO 21920-1:2022-12 (E)

## Geometrical product specifications (GPS) - Surface texture: Profile - Part 1: Indication of surface texture (ISO 21920-1:2021)

## Contents

Page

**European foreword** ... **4**

**Foreword** ... **5**

**Introduction** ... **6**

**1 Scope** ... **7**

**2 Normative references** ... **7**

**3 Terms and definitions** ... **7**

**4 Tolerance acceptance rules** ... **7**
4.1 General ... 7
4.2 Maximum tolerance acceptance rule ... 8
4.3 16 % tolerance acceptance rule ... 8
4.4 Median tolerance acceptance rule ... 8

**5 Specification elements for indication of profile surface texture specifications** ... **9**
5.1 General ... 9
5.2 Mandatory indication to be explicitly specified ... 9
5.3 Optional indications to specify non-default or further requirements ... 9

**6 Indication of profile surface texture** ... **10**
6.1 General ... 10
6.2 Graphical symbols ... 10
6.3 Minimal indication ... 11
6.3.1 General ... 11
6.3.2 Minimal indication for parameters with defined defaults ... 11
6.3.3 Minimal indication for parameters without defined defaults ... 11
6.4 Complete indication ... 12
6.4.1 General ... 12
6.4.2 Complete indication for evaluation length R-parameters ... 13
6.4.3 Complete indication for section length R-parameters ... 14
6.4.4 Complete indication for evaluation length P-parameters and W-parameters ... 15
6.4.5 Complete indication for section length P-parameters and W-parameters ... 16

**7 Rules for indication of profile surface texture specifications** ... **16**
7.1 General ... 16
7.2 Graphical symbol for the indication of profile surface texture specifications ... 17
7.3 Profile surface texture parameter ... 17
7.4 Tolerance limit value of the profile surface texture parameter ... 17
7.5 Tolerance types ... 17
7.6 Tolerance acceptance rule ... 17
7.7 Profile S-filter type ... 17
7.8 Profile S-filter nesting index ... 17
7.9 Profile L-filter type (for R-parameter) or profile S-filter type (for W-parameter) ... 18
7.10 Profile L-filter nesting index (for R-parameter) or profile S-filter nesting index (for W-parameter) ... 18
7.11 Evaluation length ... 18
7.12 Section length ... 18
7.13 Number of sections ... 18
7.14 Profile F-operator association method and element ... 18
7.15 Profile F-operator nesting index ... 18
7.16 Method of profile extraction ... 19

7.17 Other requirements, OR(*n*) 19
7.18 Manufacturing process 19
7.19 Surface lay and direction of lay 19
7.20 Profile direction 19
7.21 Setting class, Sc*n* 19

**8 Position on technical product documentation 20**
8.1 General 20
8.2 Position and orientation of the graphical symbol 20

**9 Simplified and additional indications 23**
9.1 Simplified indications 23
9.1.1 General 23
9.1.2 General tolerances 23
9.1.3 Indication by the graphical symbol combined with a letter 24
9.2 Restrictive specifications 25
9.3 Indication of identical specifications for a number of feature elements 26
9.4 Indication of surface lay and direction of lay 26
9.4.1 General 26
9.4.2 Indication of surface lay without a reference 27
9.4.3 Indication of surface lay and direction of lay relative to a workpiece feature 28
9.5 Indication of the profile direction 28
9.5.1 General 28
9.5.2 Indication of the profile direction relative to the predominant direction of the surface lay 29
9.5.3 Indication of the profile direction relative to a workpiece feature 29
9.6 Indication of bilateral surface profile tolerances 30
9.7 Indication of different requirements for several additional processes on one surface feature 30

**Annex A** (normative) **Proportions and dimensions of graphical symbols 32**

**Annex B** (normative) **Filter symbols for profile surface texture 34**

**Annex C** (normative) **Symbols for association methods and association elements 35**

**Annex D** (informative) **Indications for unambiguous surface profile specification 36**

**Annex E** (normative) **Inspection procedure for the 16 % tolerance acceptance rule 49**

**Annex F** (informative) **Criteria for the use of the maximum tolerance acceptance rule as the default 50**

**Annex G** (informative) **New issues and changes to previous documents 51**

**Annex H** (informative) **Overview of profile and areal standards in the GPS matrix model 53**

**Annex I** (informative) **Relation to the GPS matrix model 54**

**Bibliography 55**
