## Geometrical product specifications (GPS) - Guidelines for the evaluation of coordinate measuring machine (CMM) test uncertainty

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	General .....	2
5	Test probing error .....	3
6	Test of size .....	3
6.1	General .....	3
6.2	Analysis of the uncertainty contributors .....	4
6.3	Graphical representation of the test results .....	6
Annex A (normative) Background and more detailed information .....		8
Annex B (normative) Using an alternative material standard of size .....		20
Annex C (informative) Examples of uncertainty budgeting .....		21
Annex D (informative) Relation to the GPS matrix model .....		30
Bibliography .....		31
