ISO 8611-1:2011-05 (E)

Pallets for materials handling - Flat pallets - Part 1: Test methods

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Measurements 3

5 Precision and accuracy of tests and apparatus 4

6 Test load 4

7 List of tests 4

8 Tests 4
8.1 Test 1 -- Bending tests 4
8.2 Test 2 -- Forklifting tests 7
8.3 Test 3 -- Compression tests for blocks or stringers 9
8.4 Test 4 -- Stacking test 11
8.5 Test 5 -- Bottom deck bending tests 12
8.6 Test 6 -- Wing pallet bending tests 14
8.7 Test 7 -- Airbag bending tests 16
8.8 Test 8 -- Static shear test 18
8.9 Test 9 -- Corner drop test 19
8.10 Test 10 -- Shear impact tests 20
8.11 Test 11 -- Top deck edge impact test 22
8.12 Test 12 -- Block impact test 24
8.13 Test 13 -- Static coefficient of friction test 26
8.14 Test 14 -- Slip angle test 26

9 Test report 27
9.1 General information -- All materials 27
9.2 Information for wooden and wood-based composite pallets 28
9.3 Information for plastics pallets 28
9.4 Information for pallets made of other materials 28

Bibliography 29
