## Pallets for materials handling - Flat pallets - Part 1: Test methods

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Measurements .....	3
5	Precision and accuracy of tests and apparatus .....	4
6	Test load .....	4
7	List of tests .....	4
8	Tests .....	4
8.1	Test 1 -- Bending tests .....	4
8.2	Test 2 -- Forklifting tests .....	7
8.3	Test 3 -- Compression tests for blocks or stringers .....	9
8.4	Test 4 -- Stacking test .....	11
8.5	Test 5 -- Bottom deck bending tests .....	12
8.6	Test 6 -- Wing pallet bending tests .....	14
8.7	Test 7 -- Airbag bending tests .....	16
8.8	Test 8 -- Static shear test .....	18
8.9	Test 9 -- Corner drop test .....	19
8.10	Test 10 -- Shear impact tests .....	20
8.11	Test 11 -- Top deck edge impact test .....	22
8.12	Test 12 -- Block impact test .....	24
8.13	Test 13 -- Static coefficient of friction test .....	26
8.14	Test 14 -- Slip angle test .....	26
9	Test report .....	27
9.1	General information -- All materials .....	27
9.2	Information for wooden and wood-based composite pallets .....	28
9.3	Information for plastics pallets .....	28
9.4	Information for pallets made of other materials .....	28
Bibliography .....		29
