

# DIN 55468-1:2015-06 (E)

## Packaging materials - Corrugated board - Part 1: Requirements, testing

---

| <b>Contents</b> |   | <b>Page</b> |
|-----------------|---|-------------|
| Foreword .....  |   | 3           |
| 1               | Scope .....   | 4           |
| 2               | Normative references .....  | 4           |
| 3               | Terms and definitions .....   | 4           |
| 4               | Types of corrugated fibreboard; flute profiles and dimensions ..... | 5           |
| 4.1             | Types of corrugated fibreboard .....                                | 5           |
| 4.2             | Flute profiles and dimensions .....                                 | 5           |
| 5               | Requirements .....  | 7           |
| 5.1             | Grades .....  | 7           |
| 5.2             | Nominal value thresholds .....                                      | 8           |
| 6               | Designation .....   | 8           |
| 6.1             | General .....   | 8           |
| 6.2             | Examples .....  | 8           |
| 7               | Testing .....   | 8           |
| 7.1             | Sampling .....  | 8           |
| 7.2             | Conditioning .....  | 8           |
| 7.3             | Bursting strength .....   | 8           |
| 7.4             | Puncture resistance .....   | 8           |
| 7.5             | Edgewise crush resistance .....                                     | 8           |
