

DIN 55542-2:2021-10 (E)

Packaging test - Determination of capacity for means of packaging, cylindrical tubes

Contents	Page
Foreword	3
1 Scope	4
2 Normative references	4
3 Terms and definitions	4
4 Basic principles for determining capacity	4
5 Determining capacity	6
Annex A (informative) Explanatory notes on the development of this standard	20
Figures Figure 1 -- Tube	4
Figure 2 -- Conversion factors	6
Tables Table 1 -- Determining capacity for d = 11 mm	7
Table 2 -- Determining capacity for d = 13,5 mm	7
Table 3 -- Determining capacity for d = 16 mm	8
Table 4 -- Determining capacity for d = 19 mm	8
Table 5 -- Determining capacity for d = 22 mm	9
Table 6 -- Determining capacity for d = 25 mm	10
Table 7 -- Determining capacity for d = 28 mm	11
Table 8 -- Determining capacity for d = 30 mm	12
Table 9 -- Determining capacity for d = 32 mm	13
Table 10 -- Determining capacity for d = 35 mm	13
Table 11 -- Determining capacity for d = 38 mm	15
Table 12 -- Determining capacity for d = 40 mm	16
Table 13 -- Determining capacity for d = 45 mm	17
Table 14 -- Determining capacity for d = 50 mm	18
Table 15 -- Determining capacity for d = 60 mm	19
