Foreword 4

1 Scope 5

2 Normative references 5

3 Termsanddefinitions 5

4 Materials, construction and design 8
4.1 Materials 8
4.2 Construction 8
4.3 Design filling height 8
4.4 Recycled materials 9
4.5 Electrostatic protective FIBC 9

5 Performance 9
5.1 Type-testing 9
5.2 Preparation of FIBC for test 10
5.2.1 Filling 10
5.2.2 Conditioning 10
5.3 Test requirements 10
5.3.1 Cyclic top lift test(s) 10
5.3.2 Compression/stacking test 10

6 Statement of conformity 11

7 Marking 11

Annex A (normative) Evaluation of the UV resistance 13

Annex B (normative) Cyclic top lift test 15

Annex C (normative) Compression/stacking test 28

Annex D (informative) Guidance on selection and use of FIBCs 29

Annex E (informative) Design of FIBCs 34

Annex F (informative) Optional methods for UV resistance test 38
