## Pallets for materials handling - Flat pallets - Part 1: Test methods

---

| <b>Contents</b>    |   | <b>Page</b> |
|--------------------|---|-------------|
| Foreword .....     |   | v           |
| Introduction ..... |   | vi          |
| 1                  | Scope .....   | 1           |
| 2                  | Normative references .....                                | 1           |
| 3                  | Terms and definitions .....                               | 1           |
| 4                  | Measurements .....  | 3           |
| 5                  | Precision and accuracy of tests and apparatus .....       | 3           |
| 6                  | Test load .....   | 3           |
| 7                  | List of tests .....                                       | 3           |
| 8                  | Tests .....   | 4           |
| 8.1                | Test 1 -- Bending tests .....                             | 4           |
| 8.1.1              | Purpose .....   | 4           |
| 8.1.2              | Procedure .....   | 5           |
| 8.1.3              | Measurements .....  | 6           |
| 8.2                | Test 2 -- Forklifting tests .....                         | 7           |
| 8.2.1              | Purpose .....   | 7           |
| 8.2.2              | Procedure .....   | 7           |
| 8.2.3              | Measurement .....   | 8           |
| 8.3                | Test 3 -- Compression tests for blocks or stringers ..... | 9           |
| 8.3.1              | Purpose .....   | 9           |
| 8.3.2              | Procedure .....   | 9           |
| 8.3.3              | Measurement .....   | 10          |
| 8.4                | Test 4 -- Stacking test .....                             | 11          |
| 8.4.1              | Purpose .....   | 11          |
| 8.4.2              | Procedure .....   | 12          |
| 8.4.3              | Measurement .....   | 12          |
| 8.5                | Test 5 -- Bottom deck bending tests .....                 | 12          |
| 8.5.1              | Purpose .....   | 12          |
| 8.5.2              | Procedure .....   | 12          |
| 8.5.3              | Measurement .....   | 13          |
| 8.6                | Test 6 -- Wing pallet bending tests .....                 | 14          |
| 8.6.1              | Purpose .....   | 14          |
| 8.6.2              | Procedure .....   | 14          |
| 8.6.3              | Measurements .....  | 15          |
| 8.7                | Test 7 -- Airbag bending tests .....                      | 15          |
| 8.7.1              | Purpose .....   | 15          |
| 8.7.2              | Procedure .....   | 15          |
| 8.7.3              | Measurement .....   | 18          |
| 8.8                | Test 8 -- Static shear test .....                         | 18          |
| 8.8.1              | Purpose .....   | 18          |
| 8.8.2              | Procedure .....   | 18          |
| 8.8.3              | Measurement .....   | 19          |
| 8.9                | Test 9 -- Corner drop test .....                          | 20          |

|                    |   |    |
|--------------------|---|----|
| 8.9.1              | Purpose .....   | 20 |
| 8.9.2              | Procedure .....   | 20 |
| 8.9.3              | Measurement .....   | 20 |
| 8.10               | Test 10 -- Shear impact tests .....                           | 21 |
| 8.10.1             | General .....   | 21 |
| 8.10.2             | Purpose .....   | 21 |
| 8.10.3             | Procedure .....   | 21 |
| 8.10.4             | Measurement .....   | 21 |
| 8.11               | Test 11 -- Top deck edge impact test .....                    | 22 |
| 8.11.1             | Purpose .....   | 22 |
| 8.11.2             | Procedure .....   | 22 |
| 8.11.3             | Measurement .....   | 23 |
| 8.12               | Test 12 -- Block impact test .....                            | 23 |
| 8.12.1             | Purpose .....   | 23 |
| 8.12.2             | Procedure .....   | 24 |
| 8.12.3             | Measurement .....   | 24 |
| 8.13               | Test 13 -- Static coefficient of friction test .....          | 25 |
| 8.13.1             | Purpose .....   | 25 |
| 8.13.2             | Procedure .....   | 25 |
| 8.13.3             | Measurement .....   | 26 |
| 8.14               | Test 14 -- Slip angle test .....                              | 26 |
| 8.14.1             | Purpose .....   | 26 |
| 8.14.2             | Procedure .....   | 26 |
| 8.14.3             | Measurement .....   | 26 |
| 9                  | Test report .....   | 27 |
| 9.1                | General information -- All materials .....                    | 27 |
| 9.2                | Information for wooden and wood-based composite pallets ..... | 28 |
| 9.3                | Information for plastics pallets .....                        | 28 |
| 9.4                | Information for pallets made of other materials .....         | 28 |
| Bibliography ..... |   | 29 |
