Water quality - Interlaboratory comparisons for proficiency testing of analytical chemistry laboratories

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Symbols	2
5	Requirements relating to proficiency test provider	4
6	Participants	4
7	Proficiency test design	4
8	Execution of proficiency tests	6
9	Proficiency test evaluation	8
10	Presentation of results	15
11	Archiving and managing the results	15
Annex A (informative) Example of Q-method estimation principle		16
Annex B (informative) Determination of repeatability standard deviation, s_r		18
Annex C (informative) Example of evaluation method in Clause 9		19
Annex D (informative) Example of variance function calculation (9.3)		21
Bibliography		25
