

ISO/TS 10832:2009-10 (E)

Soil quality - Effects of pollutants on mycorrhizal fungi - Spore germination test

Contents		Page
Foreword		iv
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms, definitions and abbreviated terms	1
4	Test methods	2
4.1	Principle	2
4.2	Standard conditions	3
5	Test materials	3
5.1	Distilled water	3
5.2	Biological material	3
5.3	Control substrate	3
5.4	Reference substance	4
5.5	Trypan blue	4
5.6	Apparatus	4
6	Storage and preparation of samples	5
7	Procedure	5
7.1	Biological system	5
7.2	Preparation of the test mixture	6
7.3	Setting up of the test	7
7.4	Choice of the tested concentration	8
7.5	Culture condition	8
7.6	End of the test	8
8	Calculation and expression of results	9
8.1	Calculation	9
8.2	Expression of results	9
9	Validity criteria	9
10	Test report	9
Annex A (informative) Experimental device		11
Annex B (informative) Example of table of results		12
Annex C (informative) Example of results		13
Annex D (informative) Precision data		15
Bibliography		17
