Foreword 8

Introduction 10

1 Scope 26

2 Terms and definitions 28

3 Components of drinking water supply systems 50
3.1 General 50
3.2 Types of drinking water supply systems 50
3.3 Water source 51
3.4 Intake and transport 52
3.5 Treatment 52
3.6 Storage, transport and distribution 53
3.7 Disposal of residues 54

4 Objectives for the drinking water utility 55
4.1 General 55
4.2 Protection of public health 60
4.3 Meeting users' needs and expectations 61
4.4 Provision of services under normal and emergency situations 61
4.5 Sustainability of the water utility 62
4.6 Promotion of sustainable development of the community 63
4.7 Protection of the environment 65

5 Management components of a drinking water utility 66
5.1 General 66
5.2 Activities and process management 66
5.3 Resources management 67
5.4 Asset management 68
5.5 Customer relations management 68
5.6 Information management 69
5.7 Environmental management 70
5.8 Risk management 71

6 Guidelines for the management of drinking water utilities 72
6.1 General 72
6.2 Organization 75
6.3 Planning and construction 78
6.4 Operations and maintenance 79

7 Assessment of water services 89
7.1 General 89
7.2 Assessment policy 91
7.3 Goal and scope of the assessment 92

7.4 Parties involved in the assessment 93
7.5 Methodology of assessment 94
7.6 Service assessment criteria 95
7.7 Resources to conduct the assessment 96
7.8 The production of output and recommendations for the use of the output 97

8 Performance indicators 97
8.1 General 97
8.2 Performance indicators systems 98
8.3 Quality of the information 102
8.4 Example of a performance indicator 103

Tabellen

Annex A (informativ) of corresponding terms in English and German 104

Annex B (informative) Schematics of drinking water supply systems 110

Annex C (informative) Possible actions to achieve the objectives of the drinking water utility 115

Annex D (informative) Further guidelines for the management of drinking water utilities 120

Annex E (informative) Examples of service assessment criteria related to the drinking water utility objectives, performance indicators related to assessment criteria, and service assessment criteria related to components of a drinking water system 124

Annex F (informative) Example of confidence-grading scheme for performance indicators systems 145
