# ISO/TR 27921:2020-05 (E)

## Carbon dioxide capture , transportation, and geological storage - Cross Cutting Issues - CO2 stream composition

## Contents

Page

**Foreword** ..... **v**

**Introduction** ..... **vi**

**1 Scope** ..... **1**

**2 Normative references** ..... **1**

**3 Terms and definitions** ..... **1**

**4 Symbols and abbreviated terms** ..... **2**

**5 Overview of chemical composition of $CO_2$ streams** ..... **4**

5.1 Overview ..... 4

5.1.1 Types of impurities ..... 4

5.1.2 Measurements and estimates ..... 4

5.1.3 Data sources ..... 5

5.2 Ranges of impurity concentrations for coal fired power plants ..... 5

5.2.1 Gaseous components ..... 5

5.2.2 Trace elements ..... 8

5.2.3 Particulate matter ..... 9

5.3 Ranges of impurity concentrations from industrial emitters ..... 10

5.3.1 Cement industry ..... 10

5.3.2 Iron and Steel industry ..... 11

5.3.3 $H_2$ production ..... 11

5.4 Discussion and interpretation ..... 11

5.4.1 Variability among processes and industries ..... 11

5.4.2 Compositional stability and potential chemical reactions within $CO_2$ streams ..... 12

**6 Impacts of impurities** ..... **12**

6.1 Physical impacts ..... 13

6.1.1 Overview ..... 13

6.1.2 Effect on transportation (pipeline and ship transportation) ..... 13

6.1.3 Effect on geological storage ..... 15

6.2 Chemical impacts ..... 18

6.2.1 Corrosion of metallic materials ..... 18

6.2.2 Impacts on geological storage system ..... 20

6.3 Impacts on microbial communities in the storage complex ..... 23

6.4 Toxic and ecotoxic effects of impurities in case of leakage ..... 24

6.4.1 General statement ..... 24

6.4.2 Acute toxic effects ..... 24

6.4.3 Chronic effects ..... 25

**7 Parameters to monitor and measurement methods** ..... **26**

7.1 Monitoring and thresholds ..... 26

7.2 Relevant parameters to monitor and measurement methods ..... 26

7.2.1 Sampling of the $CO_2$ stream ..... 27

7.2.2 Determining the physical properties and phase ..... 27

7.2.3 Flow measurement ..... 27

7.2.4 Impurity concentration measurements ..... 28

**8 Relationship of $CO_2$ stream emissions and quantification** ..... **28**

**9 Integration issues** ..... **29**
9.1 Constraints on $CO_2$ stream composition ..... 29
9.2 Optimisation of $CO_2$ stream composition based on techno-economic assessments ..... 30
9.3 Mixing $CO_2$ streams before injection: Challenges in larger CCS infrastructures ..... 30
**10 Conclusions** ..... **31**
**Annex A** (informative) **Dense phase $CO_2$ corrosion** ..... **33**
**Annex B** (informative) **Composition of $CO_2$ streams (Source ISO 27913:2016)** ..... **36**
**Bibliography** ..... **39**
