Soil functions and related ecosystem services - Definitions, descriptions and conceptual framework

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	General consideration	4
5	Description of ecological soil functions	4
5.1	General	4
5.2	Water regulation, retention and release	4
5.3	Organic matter storage, transformation and recycling	4
5.4	Nutrient cycling	5
5.5	Contaminant retention, transformation and degradation	5
5.6	Gas exchanges with atmosphere	5
5.7	Habitat provision	6
5.8	Physical stability	6
6	Description of soil ecosystem services	8
6.1	General	8
6.2	Biomass production	8
6.3	Hydrological control (purification, supply, regulation)	8
6.4	Erosion control	8
6.5	Nutrient and element cycling	8
6.6	Climate regulation	8
6.7	Biodiversity maintenance and resilience	9
6.8	Pest, disease control, plant health promotion	9
6.9	Contaminant-related ecosystem services	9
6.10	Air quality regulation	9
7	Conceptual framework of ecosystems services provided by soils	9
