

DIN EN 12931:2008-11 (E)

Chemicals used for treatment of water intended for human consumption - Chemicals for emergency use - Sodium dichloroisocyanurate, anhydrous

Contents		Page
Foreword		3
Introduction		5
1 Scope		6
2 Normative references		6
3 Description		6
4 Purity criteria		8
5 Test methods		9
6 Labelling - Transportation - Storage		16
spectrometry hydride technique)		23
Bibliography		30
Annex C (normative) Determination of arsenic, antimony and selenium (atomic absorption Annex A (informative) General information on sodium dichloroisocyanurate, anhydrous		19
Annex B (normative) General rules relating to safety		21
