ISO 17402:2008-06 (E)

Soil quality - Requirements and guidance for the selection and application of methods for the assessment of bi oavailability of contaminants in soil and soil materials

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Bioavailability in relation to assessment of soil function 6
4.1 Soil functions and organisms to protect 6
4.2 Risk assessment 6
4.3 Protection goals 7

5 Concepts of bioavailability 8
5.1 Definitions 8
5.2 Links between bioavailability and biological effects and/or bioaccumulation 10

6 Description of methods to assess bioavailability 11
6.1 General 11
6.2 Assessment of bioavailability using chemical test methods 12
6.3 Assessment of bioavailability using ecotoxicological test methods 13

7 Pathways related to soil quality (both organism and soil) 14
7.1 General 14
7.2 Human 14
7.2.1 General 14
7.2.2 Soil ingestion 14
7.2.3 Dermal contact 15
7.2.4 Inhalation of soil 15
7.2.5 Groundwater used for drinking water 15
7.3 Exposure of higher animals 15
7.4 Exposure of soil organisms 15
7.4.1 General 15
7.4.2 Exposure of soil micro-organisms 15
7.4.3 Exposure of soil invertebrates (micro-, meso- and macro-fauna) 16
7.5 Exposure of plants 16

8 Available methods to measure bioavailability 17
8.1 General 17
8.2 Chemical methods to measure environmental availability 17
8.2.1 General 17
8.2.2 Methods for soil ingestion 18
8.2.3 Methods for dermal uptake 19
8.2.4 Methods for plants 19
8.2.5 Methods for leaching from the solid phase to the soil solution 19
8.2.6 Methods for biodegradation 20
8.2.7 Methods for soil organisms 20

8.2.8 Available and promising chemical methods to measure bioavailability 20
8.3 Ecotoxicological test methods to measure bioavailability 22

9 Requirements 25
9.1 General 25
9.2 Requirements for selection and application 25
9.2.1 Requirements for selection 25
9.2.2 Requirements for application 26
9.3 Requirements for development 27

Annex A (informative) Bioavailability in relation to biodegradability 29

Annex B (informative) International Standards for the determination of the toxicity of chemicals on sediment organisms (laboratory tests) 30

Bibliography 31
