Foreword iv

Introduction v

1 Scope 1

2 Normative references 2

3 Terms and definitions 3

4 Symbols and abbreviated terms 3

5 Material 3
5.1 General 3
5.2 Processable materials 3
5.3 Influence on water intended for human consumption 3

6 General characteristics 3
6.1 Appearance 3
6.2 Opacity 3

7 Construction 4

8 Geometrical characteristics 4
8.1 General 4
8.2 Dimensions of pipes 4

9 Pressure strength 4
9.1 Long-term pressure strength (pLPL) 4
9.2 Design pressure strength (pD) 4

10 Thermal durability 5
10.1 Thermal durability of P-pipes 5
10.2 Thermal durability of M-pipes 5
11 Strength of the weld line of M-pipes 5
12 Delamination 5
12.1 Multilayer P-pipes 5
12.2 Multilayer M-pipes 5
13 Oxygen permeability 6
14 Physical and chemical characteristics 6
15 Performance requirements 6
16 Marking 6
16.1 General requirements 6
16.2 Minimum required marking 7

Annex A (normative) List of reference product standards 8

Annex B (normative) Design coefficients for multilayer pipes 9

Annex C (normative) Determination of the thermal durability of the outer layer of M-pipes from resistance to cracking after oven ageing 10

Annex D (normative) Determination of the thermal durability of the outer layer of M-pipes from the elongation at break after 50 years 12

Annex E (normative) Multilayer M-pipes -- Choice of pD and the use of Miner's rule 14

Bibliography 18
