## Plastics piping systems for hot and cold water installations - Chlorinated poly(vinyl chloride) (PVC-C) - Part 2: Pipes

---

| <b>Contents</b>   |   | <b>Page</b> |
|---|---|-------------|
| Foreword .....  |   | iv          |
| Introduction .....  |   | vi          |
| 1   | Scope .....   | 1           |
| 2   | Normative references .....                              | 1           |
| 3   | Terms, definitions and symbols .....                    | 2           |
| 4   | Material .....  | 2           |
| 4.1   | General .....   | 2           |
| 4.2   | Pipe material .....                                     | 2           |
| 4.3   | Evaluation of LPL-values .....                          | 2           |
| 4.4   | Influence on water intended for human consumption ..... | 6           |
| 5   | General characteristics .....                           | 6           |
| 5.1   | Appearance .....  | 6           |
| 5.2   | Chamfering .....  | 6           |
| 5.3   | Opacity .....   | 6           |
| 6   | Geometrical characteristics .....                       | 6           |
| 6.1   | General .....   | 6           |
| 6.2   | Dimensions of pipes .....                               | 7           |
| 6.3   | Wall thicknesses and their tolerances .....             | 7           |
| 7   | Mechanical characteristics .....                        | 8           |
| 7.1   | Resistance to internal pressure .....                   | 8           |
| 7.2   | Impact resistance .....                                 | 9           |
| 7.3   | Tensile strength .....                                  | 10          |
| 8   | Physical characteristics .....                          | 10          |
| 9   | Performance requirements .....                          | 11          |
| 10  | Adhesives .....   | 11          |
| 11  | Marking .....   | 12          |
| 11.1  | General .....   | 12          |
| 11.2  | Minimum required marking .....                          | 12          |
| 11.3  | Additional marking .....                                | 12          |
| Annex A (informative) Derivation of the maximum calculated pipe value, $Sc_{alc,max}$ ..... |   | 13          |
| Bibliography .....  |   | 15          |
