ISO 2531:2009-12 (E)

Ductile iron pipes, fittings, accessories and their joints for water applications

Contents

Page

Foreword iv

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Technical requirements 5
4.1 General 5
4.2 Pressure classification and dimensional requirements 7
4.3 Material characteristics 11
4.4 Coating and linings for pipes 12
4.5 Coatings and linings for fittings and accessories 13
4.6 Marking 13

5 Leaktightness requirements 13
5.1 Pipes and fittings 13
5.2 Flexible joints 13
5.3 Flanged joints as cast, screwed, welded and adjustable 15

6 Test methods 17
6.1 Dimensions 17
6.2 Straightness of pipes 17
6.3 Tensile test 17
6.4 Brinell hardness 19
6.5 Works leaktightness test of pipes and fittings 20

7 Type tests 20
7.1 Leaktightness of joints to internal pressure 20
7.2 Leaktightness of joints to external pressure 21
7.3 Leaktightness of joints to negative internal pressure 22
7.4 Leaktightness and mechanical resistance of flanged joints 22

8 Tables of dimensions 23
8.1 Socket and spigot pipes 23
8.2 Flanged pipes 25
8.3 Fittings for socketed joints 25
8.4 Fittings for flanged joints 41

Annex A (informative) External protection 59

Annex B (informative) Internal protection 60

Annex C (informative) Dimensions of preferred pressure classes and other pressure class pipes 61

Annex D (normative) Pipe wall thicknesses, stiffness and diametral deflection 63

Annex E (normative) Quality assurance 71

Annex F (informative) Safety factors 72

Bibliography 73
