

DIN EN 13508-2:2011-08 (E)

Investigation and assessment of drain and sewer systems outside buildings - Part 2: Visual inspection coding system

Contents		Page
Foreword		5
Introduction		6
1	Scope	6
2	Normative references	6
3	Terms and definitions	7
4	Sources of additional information	12
5	General	12
5.1	Purpose	12
5.2	Methods	12
5.3	The use of the coding system	13
5.4	National equivalent coding systems	13
5.5	Data transfer	13
5.6	Information to be supplied by the employing authority	13
6	Drains and sewers - Coding system	14
7	Drains and sewers - Header information	14
7.1	Requirements	14
7.2	Other header information	15
8	Drains and sewers - Codes	16
8.1	Introduction	16
8.1.1	General	16
8.1.2	Main code	20
8.1.3	Characterisation	20
8.1.4	Quantification	20
8.1.5	Circumferential location	20
8.1.6	Observation at joint	21
8.1.7	Longitudinal location	21
8.1.8	Photograph reference	22
8.1.9	Video location reference	22
8.1.10	Remarks	22
8.2	Codes relating to the fabric of the pipeline	23
8.3	Codes relating to the operation of the pipeline	29
8.4	Inventory codes	33
8.5	Other codes	37
9	Manholes and inspection chambers - Coding system	40
10	Manholes and inspection chambers - Header information	40
10.1	Requirements	40
10.2	Other header information	40
11	Manholes and inspection chambers - Codes	41
11.1	Introduction	41

11.1.1	General	41
11.1.2	Main code	46
11.1.3	Characterisation	46
11.1.4	Quantification	46
11.1.5	Circumferential location	46
11.1.6	Observation at joint	47
11.1.7	Descriptive location	47
11.1.8	Vertical location	48
11.1.9	Photograph reference	49
11.1.10	Video location reference	49
11.1.11	Remarks	49
11.2	Codes relating to the fabric of the manhole or inspection chamber	49
11.3	Codes relating to the operation of the manhole or inspection chamber	57
11.4	Inventory codes	59
11.5	Other codes	65
12	Documentation	67
Annex A (normative) National equivalent coding systems		68
A.1	Header information	68
A.2	Codes	68
Annex B (informative) Format for electronic transfer of coded data		69
B.1	Introduction	69
!B.2 Character Separated format"		69
B.2.1	General	69
B.2.2	File header information	69
B.2.3	Inspection header information	71
B.2.4	Inspection data	72
B.2.5	Examples	73
B.3	Extensible Mark-up Language Format	74
B.3.1	General	74
B.3.2	File header information	75
B.3.3	Inspection header information	75
B.3.4	Inspection data	75
B.3.5	Example	75
Annex C (informative) Recommended system for coding of header information for drains and sewers		79
C.1	Introduction	79
C.2	Location of the inspection	79
C.3	Inspection details	82
C.4	Pipeline details	86
C.5	Other information	89
C.6	Changes to header information	89
C.7	Other information required by the employing authority	91
Annex D (informative) Recommended system for coding of header information for manholes and inspection chambers		92
D.1	Introduction	92
D.2	Location of the inspection	92
D.3	Inspection details	94
D.4	Manhole or inspection chamber details	98
D.5	Other information	100
D.6	Changes to header information	101
D.7	Other information required by the employing authority	102

Annex E (informative) Sample coding sheet	103
Annex F (informative) Photographs illustrating the coding system for drains and sewers	105
Annex G (informative) Photographs illustrating the coding system for manholes and inspection chambers	134
Annex H (informative) Sources of additional information	145
H.1 International Standards	145
H.2 Austria	145
H.2.1 Austrian Water and Waste Management Association - Rules of Practice (ÖWAV - Österreichischer Wasser- und Abfallwirtschaftsverband - Regelblätter)	145
H.2.2 Other guidelines	145
H.3 Denmark	146
H.4 Finland	146
H.5 France	147
H.6 Germany	147
H.7 Italy	148
H.8 Netherlands	148
H.9 Norway	148
H.10 Sweden	148
H.11 Switzerland	148
H.12 United Kingdom	149
Converting data from earlier versions of this standardAnnex I (informative)	150!
