Foreword 3

Introduction 5

1 Scope 6

2 Normative references 7

3 Terms and definitions, symbols and abbreviations 7

4 Material 8
4.1 Compound 8
4.2 Compound for identification stripes 8

5 General characteristics 8
5.1 Appearance 8
5.2 Colour 8
5.3 Effect on water quality 9

6 Geometrical characteristics 9
6.1 Measurements 9
6.2 Mean outside diameter, out-of-roundness (ovality) and tolerances 9
6.3 Wall thicknesses and their tolerances 11
6.4 Coiled pipe 14
6.5 Pipe lengths 14

7 Mechanical characteristics 14
7.1 Conditioning 14
7.2 Requirements 14
7.3 Retest in case of failure at 80 °C 16
7.4 Pipe stiffness for vacuum sewer systems 16

8 Physical characteristics 16
8.1 Conditioning 16
8.2 Requirements 16

9 Chemical characteristics of pipes in contact with chemicals 17

10 Performance requirements 17

11 Marking 18
11.1 General 18
11.2 Minimum required marking of pipes 18

Annex A (informative) Relationship between PN, MRS, S and SDR 19

Annex B (normative) Pipes with co-extruded layers 20

Annex C (normative) Pipes with peelable layer 22

Annex D (normative) Pipe stiffness for vacuum sewer systems 24
