DIN EN ISO 15175:2011-09 (E)

Soil quality - Characterization of soil related to groundwater protection (ISO 15175:2004)

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 8

4 General 10

5 Site assessment 12
5.1 General 12
5.2 Relevant soil processes 13
5.3 Impact assessment procedures 14
5.4 Site and soil description 16
5.5 Sampling 17
5.6 Characterization of soil and water 18

6 Data handling, evaluation and quality 25

Annex A (informative) Qualitative methods for assessing the potential leaching risk 28

Annex B (informative) Quantitative methods for assessing the actual leaching risk 47

Annex C (informative) Types of contaminated site and associated contaminants 51

Annex D (informative) List of priority pollutants with respect to groundwater pollution 52

Annex E (informative) Overview of soil leaching and extraction test 56
