# DIN EN ISO 16072:2011-09 (E)

## Soil quality - Laboratory methods for determination of microbial soil respiration (ISO 16072:2002)

## Contents

Page

Foreword ..... 3

Introduction ..... 4

1 Scope ..... 5

2 Normative references ..... 5

3 Terms and definitions ..... 5

4 Procedure ..... 6
4.1 General conditions ..... 6
4.2 Choice of the measuring system ..... 7

5 Measuring systems ..... 7
5.1 Determination of O2 consumption by static incubation in a pressure-compensation system ..... 7
5.2 Determination of CO2 release by titration in a static system ..... 8
5.3 Coulometric determination of CO2 release in a static system ..... 10
5.4 Determination of CO2 release using an infrared gas analyser in a flow-through system ..... 11
5.5 Determination of CO2 release using gas chromatography in a flow-through system and a static system ..... 14
5.6 Determination of soil respiration by pressure measurement in a static system ..... 19

Bibliography ..... 23
