Foreword 3

Introduction 4

1 Scope 5

2 Terms and definitions 5

3 Principle 5

4 Test materials 6
4.1 Biological material 6
4.2 Reagents 6

5 Apparatus 7

6 Procedure 8
6.1 Collecting the soil samples 8
6.2 Extracting Collembola and Acarina from soil samples 8
6.3 Sorting, preserving and identifying Collembola and Acarina 9

7 Assessment of results 10

8 Study report 10

Annex A (informative) Species determination in collembolans and mites 11

Annex B (informative) Alternative methods for sampling of micro-arthropods 13
