Soil quality - Guidance for burial of animal carcasses to prevent epidemics

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Objectives and constraints	2
5	Planning of burial programme	3
5.1	Time of burial	3
5.2	Consideration of diseases and kind of animal carcasses infected	3
5.3	Selection of burial site	4
6	Construction of burial pit	9
6.1	Preparation of the site	9
6.2	Excavation of the burial site	10
6.3	Placement of lining materials and discharge pipes	10
6.4	Placing of carcasses in the burial pit	11
6.5	Coverage of burial pit after finalization of placement of carcasses	11
7	Maintenance after burial	12
7.1	Safety measures	12
7.2	Odour treatment	12
7.3	Gas discharge	12
7.4	Leachate treatment	12
7.5	Surface regrading	12
8	Monitoring	12
9	Reuse of burial sites	12
10	Report and record keeping	13
Annex A (informative) Examples of national specifications regarding burial of animal carcasses		14
Annex B (informative) Diseases listed by the World Organisation for Animal Health (OIE)		22
Annex C (informative) Examples of the design of protection layers for perforated drainage pipes		26
Bibliography		27
