## Soil quality - Determination of total cyanide

---

| <b>Contents</b>       |                                                                                                      | <b>Page</b> |
|-----------------------|------------------------------------------------------------------------------------------------------|-------------|
| Foreword .....        |                                                                                                      | iv          |
| Introduction .....    |                                                                                                      | v           |
| 1                     | Scope .....                                                                                          | 1           |
| 2                     | Normative references .....                                                                           | 1           |
| 3                     | Terms and definitions .....                                                                          | 1           |
| 4                     | Principle .....                                                                                      | 2           |
| 4.1                   | Direct liberation of hydrogen cyanide using orthophosphoric acid .....                               | 2           |
| 4.2                   | Determination of total cyanide content .....                                                         | 2           |
| 5                     | Reagents .....                                                                                       | 2           |
| 5.1                   | Reagents for liberation and absorption of cyanide .....                                              | 2           |
| 5.2                   | Reagents for the photometric determination of cyanide .....                                          | 3           |
| 5.3                   | Reagents for the titrimetric determination of cyanide .....                                          | 3           |
| 6                     | Apparatus .....                                                                                      | 4           |
| 7                     | Sample preservation and preparation .....                                                            | 5           |
| 7.1                   | Sample preservation .....                                                                            | 5           |
| 7.2                   | Sample preparation .....                                                                             | 5           |
| 8                     | Direct liberation using orthophosphoric acid .....                                                   | 6           |
| 8.1                   | Procedure .....                                                                                      | 6           |
| 8.2                   | Blank test .....                                                                                     | 6           |
| 9                     | Determination of cyanide -- Photometric method .....                                                 | 7           |
| 9.1                   | Applicability .....                                                                                  | 7           |
| 9.2                   | Procedure .....                                                                                      | 7           |
| 9.3                   | Preparation of the calibration graph .....                                                           | 7           |
| 9.4                   | Calculation .....                                                                                    | 7           |
| 10                    | Determination of cyanide -- Titrimetric method using an indicator .....                              | 8           |
| 10.1                  | Applicability .....                                                                                  | 8           |
| 10.2                  | Procedure .....                                                                                      | 8           |
| 10.3                  | Calculation .....                                                                                    | 9           |
| 11                    | Expression of results .....                                                                          | 9           |
| 12                    | Precision .....                                                                                      | 10          |
| 13                    | Test report .....                                                                                    | 10          |
| Annex A (informative) | Precision data .....                                                                                 | 11          |
| Annex B (informative) | Extraction with sodium hydroxide solution and subsequent liberation using orthophosphoric acid ..... | 12          |

|                                                                                                                                                    |           |
|----------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| <b>Annex C (informative) Comparison of the direct liberation of total cyanide and sodium hydroxide extraction with subsequent liberation .....</b> | <b>15</b> |
| <b>Bibliography .....</b>                                                                                                                          | <b>16</b> |
