## Water quality - Determination of the acute toxicity to *Thamnocephalus platyurus* (Crustacea, Anostraca)

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Principle .....	2
5	Test environment .....	2
6	Reagents, test organisms and media .....	2
7	Apparatus and materials .....	3
8	Treatment and preparation of samples .....	4
8.1	Special precautions .....	4
8.2	Preparation of the stock solutions of substances to be tested .....	4
9	Procedure .....	4
9.1	Hatching of the cysts .....	4
9.2	Selection of test concentrations .....	5
9.3	Preparation of the test and control solutions .....	5
9.4	Introduction of the organisms .....	6
9.5	Incubation of the test system .....	6
9.6	Measurements .....	7
10	Estimation of the LC50 .....	7
11	Reference test .....	8
12	Validity criteria .....	8
13	Test report .....	8
Annex A (informative) Rapid test for determination of sublethal effects on <i>Thamnocephalus platyurus</i> (1 h exposure) .....		10
Annex B (informative) Culturing of <i>Thamnocephalus platyurus</i> for cyst production .....		16
Annex C (informative) Precision data .....		19
Bibliography .....		20
