## Water quality - The variability of test results and the uncertainty of measurement of microbiological enumeration methods

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
<b>1</b>	<b>Scope .....</b>	<b>1</b>
<b>2</b>	<b>Key concepts .....</b>	<b>1</b>
2.1	Uncertainty of measurement .....	1
2.2	Estimation of the uncertainty of measurement .....	1
2.3	Intralaboratory reproducibility .....	2
2.4	Combined standard uncertainty .....	2
2.5	Relative standard uncertainty .....	2
2.6	Relative variance .....	3
2.7	Expanded uncertainty and expanded relative uncertainty .....	3
<b>3</b>	<b>Microbiological methods .....</b>	<b>4</b>
3.1	Common basis .....	4
3.2	Quantitative instruments .....	4
3.3	Uncertainty structure .....	4
3.4	Expression of combined uncertainty .....	4
<b>4</b>	<b>Choices of approach .....</b>	<b>5</b>
4.1	General .....	5
4.2	Choices of evaluation approach .....	6
4.3	Choices of expression and use of measurement uncertainty .....	7
<b>5</b>	<b>The component approach to the evaluation of operational uncertainty .....</b>	<b>7</b>
5.1	General .....	7
5.2	Identification of the components of uncertainty .....	7
5.3	Evaluation .....	7
<b>6</b>	<b>The global approach to the determination of the operational uncertainty .....</b>	<b>8</b>
6.1	General .....	8
6.2	Evaluation .....	9
<b>7</b>	<b>Combined uncertainty of the test result .....</b>	<b>10</b>
7.1	Basic principle .....	10
7.2	Operational variability .....	10
7.3	Intrinsic variability .....	10
7.4	Combined uncertainty .....	10
7.5	Borderline cases .....	10
<b>Annex A (informative)</b>	<b>Symbols and definitions .....</b>	<b>11</b>
<b>Annex B (normative)</b>	<b>General principles for combining components of uncertainty .....</b>	<b>13</b>
<b>Annex C (normative)</b>	<b>Intrinsic variability -- Relative distribution uncertainty of colony counts .....</b>	<b>18</b>
<b>Annex D (normative)</b>	<b>Intrinsic variability of most probable number estimates .....</b>	<b>20</b>
<b>Annex E (normative)</b>	<b>Intrinsic variability (standard uncertainty) of confirmed counts .....</b>	<b>23</b>

<b>Annex F (normative) Global approach for determining the operational and combined uncertainties</b>	<b>26</b>
<b>Annex G (normative) Component approach to evaluation of the combined relative uncertainty under intralaboratory reproducibility conditions</b>	<b>31</b>
<b>Annex H (normative) Experimental evaluation of subsampling variance</b>	<b>35</b>
<b>Annex I (normative) Relative repeatability and intralaboratory reproducibility of volume measurements</b>	<b>38</b>
<b>Annex J (normative) Relative uncertainty of a sum of test portions</b>	<b>40</b>
<b>Annex K (normative) Relative uncertainty of dilution factor F</b>	<b>44</b>
<b>Annex L (normative) Repeatability and intralaboratory reproducibility of counting</b>	<b>46</b>
<b>Annex M (normative) Incubation effects -- Uncertainty due to position and time</b>	<b>50</b>
<b>Annex N (informative) Expression and use of measurement uncertainty</b>	<b>55</b>
<b>Bibliography</b>	<b>61</b>
