Foreword iv

Introduction v

1 Scope 1

2 Normative reference 1

3 Termsanddefinitions 1

4 Principle 2

5 Plants, test equipment and reagents 2
5.1 Equipment 2
5.2 Test organism 2
5.3 Reference substance 2
5.4 Reagents 3

6 Protocols 3
6.1 Preparation of the soil to be tested 3
6.2 Preparation of the seeds 4
6.3 Conducting of the test 5
6.4 Test environment 6
6.5 Cell preparation 6

7 Assessment of the results 8
7.1 Presentation of the data 8
7.2 Statistical analysis 8
7.3 Interpretation of the results 8

8 Validity criteria 8

9 Test report 8

Annex A (informative) Composition of Hoagland's medium 10

Annex B (informative) Testing chemicals added to soils 11

Annex C (informative) Results of the interlaboratory test conducted within the framework of NF T 90-327 12

Annex D (informative) Results of the interlaboratory test conducted on the reference substance and an industrial contaminated soil 14
